

putting our stamp on melb urne in 2010

Now in its third year, Carbon Expo Australasia is on the move to Melbourne to showcase the rapidly growing business of reducing carbon emissions...

energising the low carbon economy

Australia's premier carbon reduction trade fair & conference returns...

Come & discover Australia's new carbon business opportunities

CarbonExpo
AUSTRALASIA 2010

Melbourne Australia | 11-13 October

Do you wish to **take advantage of opportunities** in Australia's carbon business sector ?

Do you want to know how to finance your **carbon projects** & who can help ?

Do you want to know how to achieve **energy efficiency in your business** & who can help ?

Do you need to **understand how to fulfil your obligations** under new energy & emissions reporting legislation ?

Do you wish to **meet suppliers & sellers** of carbon market services and products ?

Do you need to know how an Australian carbon price will **affect or benefit your business** ?

Do you want to know how to prepare a **greenhouse footprint assessment** & who can do it ?

Carbon Expo Australasia 2010 will feature a high level conference, major trade fair and in-depth technical workshops that draw on the skills and knowledge of experts actively participating in global emissions reduction initiatives and carbon markets.

The trade fair is Australasia's premier showcase of carbon reduction initiatives and carbon market products & services from across Australia and the Asia-Pacific.

Register online @
www.carbonexpo.com.au

Participants and exhibitors at Carbon Expo Australasia 2010 will include:

- Carbon asset investors and managers
- Businesses with corporate or product emissions reduction strategies
- Government and/or private market-based emissions reduction initiatives
- Carbon offset projects, wholesalers and retailers
- Carbon accountants, auditors and verification services
- Research and education institutions
- Businesses manufacturing and retailing low carbon emission technologies
- Carbon market advisory and facilitation services (carbon pools, brokers, legal advisers and risk managers)
